## FOCUS TOPIC 2017

"The right materials and suitable processes in the digital car body process chain": The AEE is focusing on lightweight construction and digitisation – issues that are shaping the sector. Discover solutions for global production flexibility, cost efficiency and sustainable process design – and gain a valuable knowledge edge.

## PRESENTATION ARENA: THE WAY TO THE FUTURE

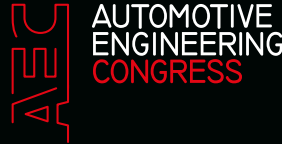

Exhibitors introduce their technical innovations, products and services and bring you up-to-date in 15-minute presentations in an open forum for discussions and stimulating knowledge-sharing.

## SHOWCASING THE BEST CAR BODY CONCEPTS...

... which were shown at the EuroCarBody, Doors & Closures conferences, for instance. Outstanding body-in-whites and the most innovative hang-on parts will be shown to the wider automotive community. Discover the best engineering achievements of the year!

## AEC – AUTOMOTIVE ENGINEERING CONGRESS

A high level of professional expertise, technical progress reports and specific development aspects: The AEC offers a comprehensive overview and the ideal opportunity to network with congress delegates and exhibitors.

## INNOVATION ALLEY

From innovation to innovation: Discover the AEE Innovation Stars – pioneering products and services, as well as the AEE Rising Stars – the latest outstanding research projects. Eagerly awaited: The AEE Innovation Award, which acknowledges cutting-edge, multidisciplinary developments.
