

go HASCO®

*The portal for
mouldmaking*

***More time
for other
things.***

HASCO®

Enabling with System.

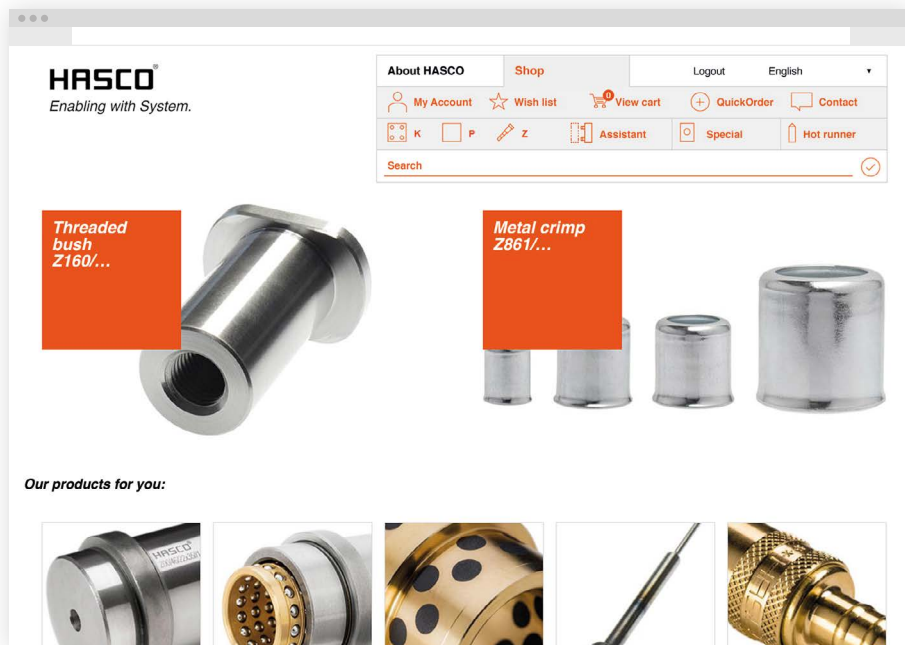

Goal.

Following discussions with our customers, we have optimised the HASCO portal, given it a new design and aligned the functions and services to your needs. The new portal will now go live and make a large number of things much easier.

Intelligent HASCO product search.

Just a few clicks and you've found precisely what you need amongst 100,000 HASCO products.

- High-performance product navigation with full-text searches
- Filters for 30 product properties
- Live checks on product availability

Simple cost calculation.

Only 60 seconds to a mould unit.

- Customised mould calculation
- Direct determination of the costs – for special-production articles too
- Compilation of parts lists and order submission
- Buying support through a special request process

 **View cart**

Moulds configured at the press of a button.

With the high-performance HASCO mould unit assistant, configuring your mould is faster and simpler than ever before – in just five steps to your target.

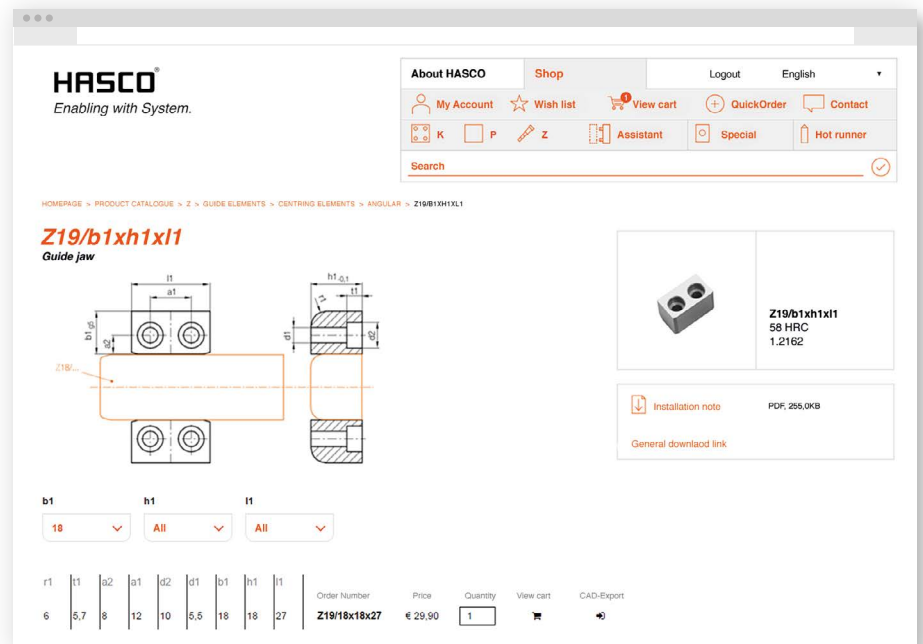

- Complete range of ready-to-mount system components
- Clearly arranged design process

Live access to quotations and orders.

Your customer account contains all the key information on orders being processed.

- Transparent processing status
- Comprehensive overview of all enquiries and orders placed
- Continuous status information

CAD data download.

The choice is yours – more than 40 different CAD formats are available in the HASCO portal.

- Direct interfaces to most CAD systems
- Use of different exchange formats
- Practical export of parts lists for costing

Fast and reliable delivery.

We ensure maximum transparency and simplicity for your logistics.

- International deliveries to locations worldwide
- No shipping charges within the EU, Switzerland and Turkey
- Transparent tracking
- Order-based product labelling on request

A blurred photograph of several runners on a red athletic track, moving from left to right. The runners are in various stages of their stride, and the background is out of focus.

About HASCO

Everything in a single system.

The new HASCO portal combines the company website and shop under a single address – www.hasco.com.

- All the information, innovations and services
- Calculate, configure and order moulds
- Rapid, simple, clear and complete

***www.hasco.com –
round the clock and
all over the globe.***

All products, innovations and services are available 24/7 worldwide in the new HASCO customer portal.
